# Backbone Connect at 53 Parker Street

Welcome to 53 Parker Street. As an IT service provider to the building we offer a range of business connectivity, telephony and cloud solutions to tenants. Your office space is 'on-net' to us, which means we can provide these essential business services to you faster than other providers and at a rate unique to tenants of the building.

## Telephony

Packages that include all the features you would expect from a modern phone system.

Monthly Rental	Included
From £15 (per user)	Line rental Handset per DDI Free landline calls Free mobile calls User support

## SIP

SIP trunking is the fast-growing replacement for traditional ISDN telephone services. Highly flexible, low cost and feature-rich, SIP is becoming a dominant new technology in the telephony marketplace.

Set-up	Monthly Rental
From £70 (per office site)	From £7.30 p/channel

## Cloud Connection

Our secure, private and dedicated cloud connections bypass the public Internet, providing high performance access from your office direct to the key cloud providers: Azure, AWS and Google Cloud. A dedicated private connection to your cloud assets helps bring down network costs, increase bandwidth throughout and improves network performance.

## Security Services

Businesses are becoming increasingly concerned about IT security and Internet-borne threats. So as well as providing your business Internet connectivity, Backbone Connect can also offer a range of perimeter firewall solutions and advanced Cybersecurity services to mitigate the risk of attack.

## IT & Desktop Support

A successful office move is dependent on trouble-free setup and migration of your IT systems. Our engineering team are not only familiar with the internet and wide area network options available, but can also provide guidance, support and management of any aspect of the setup and ongoing support of your office IT systems including:

- Supplying hardware and software
- Installation including Wi-Fi setup, desktop setup, cabling and more
- Ongoing IT support of standard business applications, anti-virus and patching

## Connectivity

Premium business grade internet access delivered to your office in as little as 5 days. As the 'on-net' provider Backbone Connect can have you installed and using the service substantially quicker than other providers. This uncontended Ethernet connection to your business is also backed with 24/7 support. As a 53 Parker Street building tenant you will be in a unique position to benefit from a great pricing model and fantastic installation times, as well as expert on-site support available 24/7 to your business.

SILVER			GOLD *Most Popular		PLATINUM *Best Value
